As a business owner for 16 years, I have dealt with all aspects of logistics, human resources, negotiations and profit and loss. This experience has been invaluable to me in my positions held in EYO to date. I find great joy in coaching our youth on the field and on the court. As the EYO VP in 2010, I also became proficient in obtaining the necessary field and court permits from both the school system and Rec and Parks. I have also worked closely with the Rockburn Park staff in multiple facets including field maintenance, park beautification and tournament execution. We have developed a great working relationship. I have also developed relations within particular schools and the Board of Education necessary for EYO to obtain needed facilities to run our basketball league. Lastly, I, with the help of dedicated parent and coach volunteers, have spent countless hours preparing school fields for play after inclement weather.

I believe the future holds great things for EYO. It is my sincere wish to be a part of that future. I take great pride in the growth we have enjoyed over the past several years. Our basketball program has grown from 575 participants to 815 in 2015.

I appreciate your time in reviewing this application. I look forward to the opportunity to run for office in the Elkridge Youth Organization.

Sincerely,

John
